THULAMELA MUNICIPALITY

INVITATION TO BID

Thulamela Local Municipality hereby invites suitably qualified, experienced, and capable service providers to submit bids for the Supply, Delivery, and Installation of High Mast Lighting Systems at Various Sites within the Jurisdiction of Thulamela Local Municipality.

Bid Number	Project Description	CIDB Grading	Non-Refundable Bid PRICE	Evaluation Criteria
01/2026/2027	Supply, delivery, and Installation of High Mast at Gondenhi Mabilu	3EP or Higher	R4.00 per page	80/20 preference points system.
02/2026/2027	Supply, delivery, and Installation of High Masts at Thohoyandou CBD (x3)	5EP or Higher	R4.00 per page	80/20 preference points system.
03/2026/2027	Supply, delivery, and Installation of High Mast at Gondenhi Sterkstroom	3EP or Higher	R4.00 per page	80/20 preference points system.
04/2026/2027	Supply, delivery, and Installation of High Mast at Mandala Traffic Testing Station	3EP or Higher	R4.00 per page	80/20 preference points system.
05/2026/2027	Supply, delivery, and Installation of High Mast at Makhuvha Stadium	3EP or Higher	R4.00 per page	80/20 preference points system.

Tender documents are obtainable from Procurement Office, Office No. 02 at Thulamela Local Municipality Head Office, during the following times: 08:00 to 15:30 (Monday to Friday) at a Non-refundable bid price of R4.00 per page as from 31 July 2026 to 21 August 2026 or can alternatively be downloaded from Thulamela website (www.thulamela.gov.za) for free. The tenderer(s) should also download SCM forms that are found in the Documents SCM-FORMS folder on the website and complete as part of the Bid documents.

The service providers must submit the completed Bid documents (in black ink) and hand deliver or courier them to Thulamela Municipality. All completed Bid documents (hand delivered or couriered) must be dropped in the BID BOX before the closing date and time of the Bids closure. The onus is on the service providers to make sure the Bid documents are submitted on time and late submission won't be accepted.

Interested service providers must attend a compulsory briefing session on 12 August 2026 at 11h00. Venue: Thulamela local Municipality Head Office Council Chamber.

Interested service providers will be expected to submit the Bid documents with the following compulsory requirements

- Tax Compliance Status Letter or Tax Compliance Pin Number
- Company registration documents (e.g., CK)
- Proof of registration with CIDB
- Proof of registration on CSD
- In case of a joint venture (JV), a signed JV agreement must be submitted
- Highlight similarities between the completed projects and the specification of this project. Provide details of employers for these projects.
- Bidders must submit proof that municipal rates and taxes for both the company and its director(s) are not in arrears for more than three (3) months, and such proof must not be older than three (3) months from the closing date of the advertisement. Where the business operates from leased premises, a valid lease agreement must be attached. Where a director does not own property or is renting, a valid lease agreement must also be provided. If the bidder resides or operates in an area where municipal services are not billed, an official signed and stamped letter from the relevant local municipality, not older than three (3) months from the date of advertisement, must be submitted confirming that the area is not subject to municipal billing and that the bidder is formally exempted from municipal service charges.
- At least one completed project for installation of High mast in the Municipal environment by the service provider in the last 10 years with clients contact details, description, and contract values (Attached signed appointment letters and completion certificates)

Bids will be assessed under the provisions of the following Acts and its Regulations: Municipal Finance Management Act, (Act 56 of 2003); PPPFA, Supply Chain Management Policy of the municipality in accordance with the specifications and in terms of 80/20 preferential points system as per the advert and bid document.

Specific Goals Categories (CSD will be used for verification)	Number of Points (80/20 system) 20 Points breakdown
1. 100% Black ownership	10
2. 100% Women ownership	5
3. Youth	3
4. Disability (Medical certificate will be used to verify the disability status of the bidder).	2

Sealed bid documents must be submitted in envelopes clearly indicating "BID NUMBER AND DESCRIPTION" on the outside and must reach the undersigned by depositing it into the official Bid Box at the front of the main entrance to Thohoyandou Civic Centre, Old Agriven Building, Thohoyandou, by no later than 11H00 on, 21 August 2026.

Administrative queries can be directed to Mr. Mudzili T.P. at 015 962 7629 and technical queries can be directed to Mr. Phaswana K. at 015 962 7676 during office hours.

The Municipality is not bound to accept the lowest Bid and reserves the right to accept any part of a Bid. Bids must remain valid for a period of ninety (90) days after closing date of the submission thereof.

Bids may only be submitted on the bid documentation provided by the municipality.

NB: Bids which are late, incomplete, unsigned, completed by pencil, sent by telegraph, facsimile, electronically (Fax), or E-mail and without the compulsory requirements will be disqualified

Mr SIGIDI KTM
MUNICIPAL MANAGER

Ad designed by Zout News NPC

Overcoming ADDICTION can be very challenging, and having support during this time is very important. Support groups can help you:

- To feel less lonely
- Reduce depression and anxiety
- Create a safe space to talk about your feelings openly
- Develop skills to cope with challenges

A non-denominational support group is hosted on Monday evenings from 17:30 – 18:30 on the grounds of NG Kerk Stad-op-de-Berg at 92 Burger Street, Louis Trichardt, to provide a safe environment for people battling addiction.

For more information call Johan de Klerk 064 682 9725; Tienie Venter 083 241 7969 or Friede Meissenheimer 082 657 8602.

SPECIFICATION FOR SUPPLY AND DELIVERY OF HIGHMAST AT MANDALA TRAFFIC STATION FOR SOLAR SYSTEM.

ITEM	DESCRIPTION	UNITS	QUAN TITY	MATER IAL	LABOUR	TOTAL
1	Supply, deliver, erect, test and commission complete 20 m hot-dip galvanized raising and lowering high mast lighting system, including mast, foundation, lantern carriage, luminaires, solar power system, electrical installation, transport, storage, craneage, testing and all accessories required for a complete operational installation	No.	1			
2	Supply, deliver, install, terminate, test and commission all electrical power and control cables from the solar control panel to the base of the 20 m solar high mast, including a minimum 5-core × 2.5 mm ² copper conductor cable or larger where required by the approved electrical design and the high mast	Sum	1			

	manufacturer's recommendations. The installation shall include all cable glands, lugs, ferrules, terminations, conduits, supports, identification markers, testing, commissioning and all accessories necessary for a complete operational installation in accordance with SANS 10142-1 and the project specifications.					
3	Supply, deliver and install high-efficiency monocrystalline photovoltaic (PV) solar panels complete with mounting frames, brackets, stainless steel fasteners, UV-resistant cabling, MC4 connectors and all accessories required for a complete operational solar lighting system. Each panel shall have a minimum rated capacity of 550 Wp (or approved equivalent) and be suitable for outdoor installation. The quantity shall be as determined by	No.	6			

	the approved lighting and energy design, minimum 6 panels and maximum 12 panels per high mast installation.					
4	Design verification (where applicable), construction and completion of one reinforced concrete shallow foundation system for a 20 m raising and lowering solar high mast, complete with excavation, disposal of surplus material, selected fill, compaction, reinforcement, formwork, anchor bolt assembly, holding-down bolts, foundation template, embedded conduits, minimum 25 MPa reinforced concrete, curing, backfilling, testing and all ancillary materials, labour, plant, transport and incidentals necessary for a complete and fully operational foundation in accordance with the approved structural design, geotechnical recommendations,	No.	1			

	project specifications and the Engineer's approval.					
5	Excavate cable trench approximately 600 mm deep × 300 mm wide (or as indicated on the drawings), including setting out, excavation in all classes of material except solid rock, trimming, disposal of surplus material, supply and placement of selected bedding material where required, laying of electrical cables, installation of warning tape, backfilling in layers, compaction, reinstatement of the surface to its original condition, and all labour, plant, transport and incidentals necessary for the complete installation.	m	200			
6	Geotech/testing Carry out a geotechnical investigation and foundation verification for the proposed 20 m solar high mast installation, including site reconnaissance, trial pits	Sum	1			

	and/or boreholes as required, in-situ testing, laboratory testing, interpretation of results, preparation of a signed geotechnical report by a suitably qualified geotechnical professional, and recommendations for the safe design and construction of the high mast foundation.					
7	Supply, deliver, install, test and commission suitably rated MPPT solar charge controller(s) for the 20 m solar high mast PV system, complete with DC isolators, fuses, surge protection interface, connectors, enclosure mounting, communication/monitoring facility where required, programming, settings verification and all accessories. The number and rating of controllers shall be determined by the Contractor's approved solar energy balance and	No.	6			

	PV array design, subject to a maximum of 12 controllers , or approved equivalent configuration.					
8	Design, supply, deliver, install, test and commission high-efficiency LED floodlights complete with mounting brackets, aiming devices, drivers, wiring, connectors and all accessories required for a complete lighting installation. The Contractor shall provide a minimum of Six (6) LED floodlights, each rated at not less than 120w-135 W(or equivalent LED output), and shall demonstrate by means of a lighting design that the proposed installation achieves the specified illumination and uniformity requirements.	No.	6			
9	Supply, deliver, install, test and commission a suitably rated high-powered winch system for the 20 m raising and lowering high mast,	No.	1			

	complete with electrically driven winch motor, manual emergency operation facility, gearbox, brake mechanism, drum, operating handle, control switchgear, limit/safety devices, mounting brackets, weatherproof enclosure, wiring and all accessories required for safe raising and lowering of the lantern carriage. The winch shall be fully compatible with the supplied mast, lantern carriage, wire ropes and pulley system.					
10	Control panel for control operation of the mast, precision timer for automatic On/off control Design, supply, deliver, install, test and commission a complete weatherproof control panel for the operation, protection and automatic control of the 20 m solar high mast lighting system, complete with precision astronomical timer,	No.	1			

	photocell override, control relays, contactors, circuit breakers, surge protection devices, isolators, terminal blocks, internal wiring, labelling, enclosure, monitoring facilities and all accessories required for a complete operational installation.					
11	Design, supply, deliver, install, test and commission a complete Lithium Iron Phosphate (LiFePO₄) Battery Energy Storage System (BESS) for the 20 m Solar High Mast Lighting Installation, including battery modules, Battery Management System (BMS), battery cabinet, interconnecting cables, protection devices, supports and all accessories required for a complete operational installation. The battery storage capacity shall be determined by the Contractor's approved energy balance and	Sum	1			

	battery sizing calculations and shall be sufficient to operate the complete lighting system for the specified autonomy period.25,5VDC of 100AH.					
12	4x 10sgmm alluminium conductor armoured cables for power supply Supply, deliver, lay, joint, terminate, test and commission 4-core × 10 mm ² aluminium conductor XLPE insulated, PVC sheathed, steel wire armoured (SWA) low-voltage power cable (0.6/1 kV), complete with cable glands, lugs, connectors, identification markers, terminations, testing, commissioning and all accessories necessary for a complete operational installation in accordance with SANS standards and the project specifications.	Sum	1			
13	Provisional Sum for remuneration of the Community Liaison Officer (CLO) for a period	Month s	3	-	6000.00	18000

	of three (3) months at the Employer-prescribed rate of R6,000.00 per month. The Contractor shall make payment to the appointed CLO in accordance with the Employer's instructions					
14	Provide a Certificate of Compliance (CoC) upon completion of the works, certifying that all activities have been carried out in accordance with the contract specifications, approved method statements, relevant industry standards, manufacturer's recommendations.	Sum	1
